EVERGREEN NURSERIES

ESTABLISHED HERE IN 1900

WOODVILLE, TEXAS

(Tyler County)

Foreword

IN THE 35 years that have elapsed since these Nurseries have been established, we have learned quite a bit of valuable information about growing Seedlings, Cuttings, etc., about digging and packing them for shipments to far away Japan, Mexico, Cuba, South America, etc., that the faith that our customers have so generously placed in us during these long and busy 35 years shall continue to increase with each succeeding year is our fondest hope. We realize that the fulfillment of this hope lies largely with us, and remember when Better Plants are grown than what we are now offering, the Evergreen Nurseries will be growing them.
